

# MUSICAL FAMILY PROJECT

Few words about me: I am Ségolène, a professional musician. I play harp, sing all around the world and live in the North of France. My son, Edgar, a seven years old boy is playing drums and percussion instruments.

## **Family travels through musical encounters**

In February 2019, we traveled, my son and I, in Palestine to work with a children's choir: Amwaj Choir (Project by unesco)  
I would like to continue traveling with music, to meet others, other cultures with my harp and my songs.

## **What we are looking for and our proposals**

We would like to create a musical meeting to introduce the harp and our music during the school holidays in July 2019.

I am looking for contacts in Northern Ireland that can put me in touch with structures welcoming children: townhalls, recreational centers, social centers, libraries and aso...

it would also be a moment of exchange where children could present us their songs.  
The form of exchange is to be determined depending on the place, respective desires and possibilities from each side.

For this exchange, we would be very happy to have help with housing and / or meals

**We will be in Northern Ireland between the 9 and 17 of July 2019.**

« I am a musician, harpist and singer. Edgar began percussion instruments at the Conservatoire de la Madeleine, in the North of France this year 2018/19.

it's been a long time since I wanted to travel and play music with my son ... it is a dream becoming true. To meet each other through music, poetry.

This first trip to Palestine seemed like a real starting point. Stirring, certainly, it continues since our return to stimulate us. Going there was like being at the heart of so many things ... Holy lands, occupied lands, oppressed people; and life that grows in the middle of all this ... Wherever it might be, life flourishes and flourishes despite everything; it is looking for her greatness.

Within two years, we look further with more ambitious projects ... Our desires will be transformed according to what life gives us! According to those from Edgar too... Because I take him on board ... And I want to remain attentive to what it becomes -for both of us!"
